What is the north node?

Sometimes called the destiny point or soul's purpose, your north node placement reveals where you're being called to stretch and evolve.

Taurus north node is learning:

- To become aware of your own needs
- To handle money & develop gratitude
- About healthy boundaries
- To release your need for approval
- To proceed step by step toward goals
- To let go of judgmental tendencies
- To release addiction to chaos & drama
- To build a sense of self-worth
